

WHAT DOES 'MOBILITY WINDOW' MEAN?

Academic Cooperation Association defines mobility window as a period of time reserved for international student mobility that is embedded into the curriculum of a study programme.

The main objectives of the initiative are to increase willingness to study abroad with standardised credit recognition, and helping the students to plan their studies and mobility knowing, that mobility has a fixed place in the study programme.

In other words, if a student wishes to spend a semester abroad during her/his studies, they are offered to do it within the mobility window. Of course, it is only a recommendation, students may choose any semester for it.

Mobility windows give students the assurance that participating in mobility will not cause them to skip a semester or result in an increased level of workload, and ensure that their credits will be recognized at their home university.

However, it is important to add that it does not replace the careful planning of studies and deep focus is still required on organizing the mobility.

ELTE TáTK

SOCIOLOGY
BA

for students
admitted since
2021

MOBILITY WINDOW

If you are a Sociology BA student admitted since 2021, then the **ourth semester** is most ideal for studying abroad.

This semester, students have only 2 mandatory subjects (*Social Structures and Processes 2;* *Main Streams of Social Thinking*), which are not prerequisites of any further subecjts. Therefore, you have two options: choosing a similar course at the foreign institution, or completing them during your last semester at ELTE.

In addition to the aforementioned, if you decide to spend the fourth semester abroad, you should complete subjects equivalent to the following (at least 20 credits):

- ESZOCBA101 Citizenship, Nationality, Nationalism
- ESZOCBA102 Human Rights
- ESZOCBA-EM-4 Erasmus - Related fields 1.
- ESZOCBA-EM-5 Erasmus - Related fields 2.
