SUPPLEMENTARY NOTES

The way the credit exceeds calculated in ELTE Faculty of Social Sciences:

- the earliest semester when the ARO examine and count the student's credit exceeds when the student registers for the credit is over 110% (*for example: in a 180-credit bachelor's programme that semester when the student registers for the 199th credit*)
 - o We cut down from the credit over 110% which credit is compulsory and taken for the first time, **and from the credits gotten this way the credits will be cut down which the student taken for the 2nd/3rd/4th time and the fee of the 2nd/3rd/4th retaking was already paid** (** From the 1st semester of the academic year 2019/20 the 2nd/3rd/4th retaking and the sport courses fees according to the decision of the senate the student is obligated to pay a course registration fee, for which credit exceed fee shall not be paid.*)
 - o we multiply the credits that we got counted this way with the fees in the chart up above
